

January 4, 2011 (second email)

Friends:

Not many are as aggressive as we are, so you probably won't find this anywhere else, but it clearly highlights what I have often talked about in that the deferred options are far more easy to understand than the emotionally charged nearby options. The rhythm in cz2012 is clear, easy to see, and very easy to use to our advantage.

Take care,  
Ken
